

***DistillationMizer*<sup>™</sup> Has Been Used Successfully in the Following Applications:**

(alphabetical order - not a complete list)

- Acid/Water Separation
- Amine Unit Regenerator/Stripper
- Azeotropic Distillation
- Benzene/Toluene Separation
- Concentrators
- Deethanizers
- Deisobutanizers
- Depropanizers
- Ethylbenzene/Styrene Splitters
- Ethylene Towers
- Glycol (DPG, EG and TEG)
- Light Ends Distillation (too many to list)
- Meta/Para Xylene Separation
- MTBE Drying and Recovery
- Specialty Chemicals (too many to list)
- Amine Unit Contactor/Absorber
- Alky Depropanizers with IC4 Sidedraw
- Batch Processes (too many to list)
- CO<sub>2</sub> Strippers
- Debutanizers
- Dehexanizers
- Demethanizers
- Drying Towers
- Ethylene Oxide Towers
- FCC Gasoline Splitters
- Heavy Ends Distillation and Recovery
- MeAc Separation
- Methanol/Water Towers
- Propylene Splitters
- Waste Water Strippers
